Steps of installation

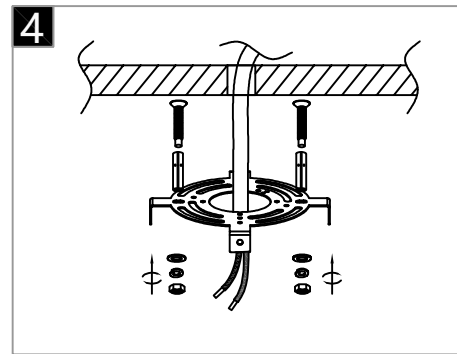

Install the T-shaped bracket onto the main body of the lamp, and then secure it with screws.

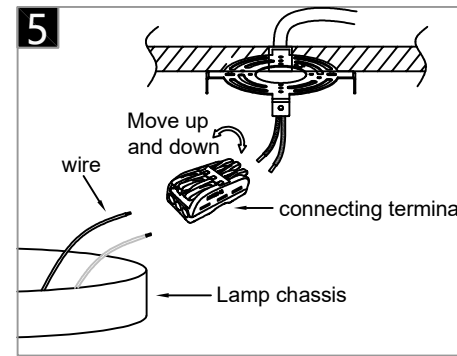

Install the semi-circular glass sheet onto the T-shaped bracket.

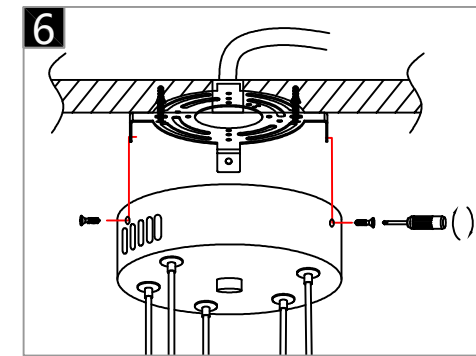

After installing the semi-circular glass sheet, then use the bracket accessories to lock it onto the T-shaped bracket.

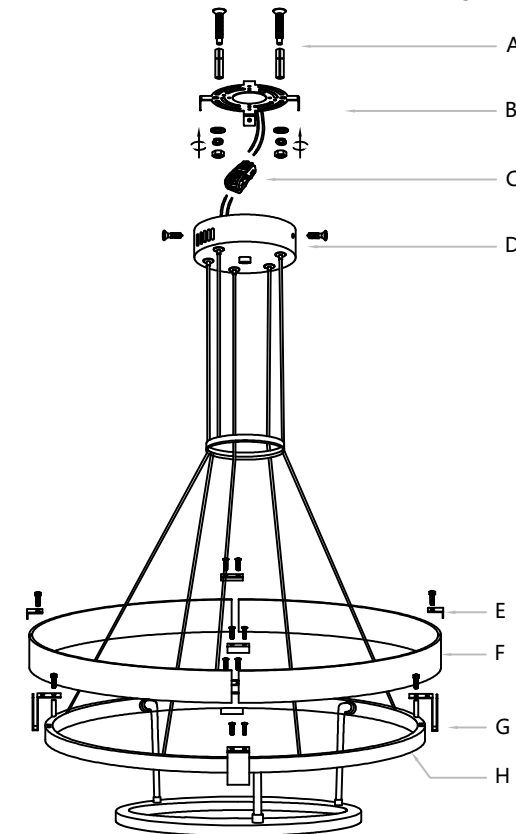

First, fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

Align the two holes on the top cover of the lamp with the holes on the installation plate on the ceiling, and then secure them with screws.

Set the iron pin on the expansion screw (A) and drive it into the ceiling, then fix the mounting plate (B) on the screw, then lock the screw at the bottom, then install the T-bracket (G) on the lamp body (H), then lock the screw, then place the semi-round glass piece (F) inside the T-bracket (G), and then align the T-bracket (G) with the hole of the support cover (E). Then lock the screw, then align the hole on the mounting plate (B) with the hole on the side of the lamp cover (D), and lock it with the screw
